

# ***THE SIGN-UP SHOWDOWN***

Competition Packet

# THE SIGN-UP SHOWDOWN

Overview + Timeline

Welcome to **The Sign-Up Showdown** — a national competition where any campus club, organization, or group can put their creativity to the test and compete for up to \$1,500 in cash prizes by driving real, verified signups to **ticker** — the new social investing app that turns verified investments into smarter decisions.

## COMPETITION TIMELINE

| DATE RANGE      | MILESTONE                                                 |
|-----------------|-----------------------------------------------------------|
| Sept 15 – Oct 5 | Team Registration Open                                    |
| Oct 6 – Oct 12  | Strategy Week – Plan your outreach and finalize your team |
| Oct 13 – Nov 9  | Execution Window – Referral campaign live                 |
| Nov 10 – Nov 15 | Validation & Review Period                                |
| Week of Nov 18  | Winners Announced                                         |
| By Nov 27       | Prize Funds Delivered                                     |

## WHAT YOU CAN WIN

1. **\$500 to the club** with the most verified signups
2. **\$500 to the SGA/student senate** of the school with the most total signups (minimum 2–3 participating clubs)
3. **\$500 to the individual** with the most verified signups (minimum of 25 required)

If no club or individual meets the minimum threshold, ticker reserves the right to withhold or redistribute prize funds.

## THE SIGN-UP SHOWDOWN

## How the Competition Works

### HOW TO WIN

To compete, your team must:

1. Register your club/team by October 5
2. Accept team setup and add Contributors in the app
3. Begin referring users using your custom referral codes (sent on October 13)

Your goal: get as many real people as possible to:

1. Download the ticker app via TestFlight (iOS) or Google Play Beta (Android)
2. Create a ticker account
3. Use your referral code at sign-up

That's it.

All referral codes must be entered at sign-up to count.

Each referral is credited to either an individual Contributor or the team's generic referral code.

### WHAT COUNTS AS A VERIFIED SIGNUP

A verified signup means:

1. A real user (no bots, duplicates, or fakes)
2. They enter a valid referral code at sign-up
3. They successfully create an account

Users do **not** need to connect a brokerage. The **first** code used gets credit — no double counting. Users can come from anywhere (not just students). Only enrolled students count toward club and SGA prize totals.

Anyone—student or not—can compete for the individual contributor prize.

### TEAM STRUCTURE

Each Team Leader registers their team. Once registered, the Leader receives a Team invite.

**The Leader must:**

1. Create their own ticker account
2. Accept team ownership in the app
3. Add Contributors (users helping refer others)

Contributors must have an account before being added.

On or around **October 13**, both a generic Team referral code and individual Contributor codes will be generated and emailed.

Referral codes will also be visible inside the app.

Contributors can continue to be added even after the competition starts. Only Contributors count toward SGA and team totals. Individual contributors without a team can still compete for the individual prize, but not the SGA prize.

### STRATEGY WEEK

This is your prep time.

No referrals will count yet — but this is when you:

- Finalize your team and Contributors
- Build your outreach strategy
- Get familiar with the app and competition mechanics
- Create content and prepare to launch strong on Day 1

Referral codes will be distributed on or around **October 13**.

# THE SIGN-UP SHOWDOWN

## Rules + Tiebreakers

### RULES

To remain eligible, Teams must:

1. Be led by enrolled students
2. Follow ticker's brand guidelines (shared during Strategy Week)
3. Abide by all local, university, and platform policies
4. Avoid duplicate or fake accounts

**Teams may use any creative, legal methods to drive signups** (tabling, flyers, TikToks, apps, events, etc.). ticker does not provide budgets or paid tools — it's all about hustle and creativity.

ticker reserves the right to cancel or modify the competition at any time.

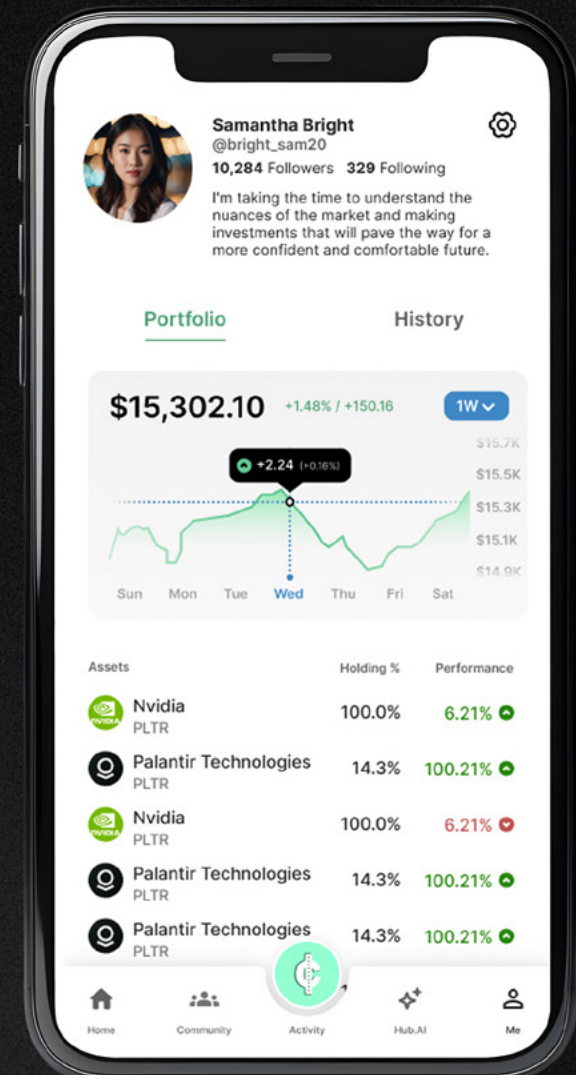

### TIEBREAKERS

If a tie occurs, the winner will be decided based on:

- Total number of verified signups
- Team with the most members in the app
- Team with the most contributors

### QUESTIONS?

Check the FAQ section in this packet, email us at [contact@tickerapp.io](mailto:contact@tickerapp.io), or DM us anytime on Instagram [@thetickerapp](https://www.instagram.com/thetickerapp).

### How do I win the competition?

Drive the most verified signups using your referral code during the competition period.

There are three ways to win:

1. \$500 to the top team (the team with the most verified signups)
2. \$500 to the SGA of the school with the most combined signups (min. 2–3 teams participating)
3. \$500 to the top individual contributor (min. 25 verified signups required)

### What counts as a verified signup?

A verified signup means:

- A real person (no bots, duplicates, or fakes)
- They enter a valid referral code at sign-up
- They create a ticker account

Users do not need to connect a brokerage. Only the first referral code used gets credit. Signups can come from anyone—not just students.

### Who can compete?

Anyone can join ticker, but only registered contributors—either on a team or solo—are eligible for prizes.

You don't have to be a student or in a club to enter the individual contributor track.

### What's the difference between contributors and members?

**Contributors** = users who were added to a team (or joined solo) and have a referral code

**Members** = followers of a team in the app—they don't count toward totals unless they signed up with a referral code

### How are ties broken?

If there's a tie in verified signups, we'll use: total verified referrals, the team with the most members, and the team with the most contributors.

### How do referral codes work?

Once your team is set up and accepted:

1. Your Team Leader gets a generic team code
2. Each Contributor gets a personal code

Users must sign up using one of these codes for the signup to count toward the competition.

### Can I join without a team?

Yes. You can enter the on your own. Just download the app during the competition and sign up using your personal referral code—you'll be competing for the \$500 individual prize.

### Do I need to be part of an official club?

Nope. Any group of people can register as a team—even if you're not officially recognized by your school.

Your team can still contribute toward your university's total and help your SGA win.

### How do I set up my team?

1. Register your team at [tickerapp.io/susd](https://tickerapp.io/susd)
2. You'll receive confirmation and a link to claim your team in the app
3. After the team is claimed and contributors are added, referral codes go out on kickoff day
4. Start driving signups and watch your numbers grow

### When do referral codes go out?

Referral codes will be emailed on kickoff day (Oct 13) after your team is confirmed and contributors are added in the app.
